

Organizations and Businesses Promoting Sustainability in Portland

As described in the NRCM report [*Portland—Connected by Nature*](#), dozens of organizations and businesses are demonstrating leadership in the effort to promote sustainability in Portland.

Below is a partial list, which we are sure is incomplete. Please contact Sarah Lakeman (slakeman@nrcm.org) with any recommendations you may have of organizations and businesses that should be added to this list. Tremendous work is being done throughout Portland, and we want to be as complete as possible in providing links to those groups and businesses so that you can learn about their work.
